Proposals and Reference Matters

No. 1: Appropriation of surplus

We propose the following appropriation of surplus:

Year-end dividends

The Company gives top priority to the issue of increasing corporate value through business growth and expansion and regards the return of profits to shareholders as a key management issue.

In appropriating profits, we give consideration to all aspects including returns on shareholder investment and the securing of internal reserves for our future growth and expansion.

We strive to return profits to our shareholders based on consolidated performance results and maintain stable dividends from a medium to long term perspective while taking into account consolidated payout ratio and consolidated dividends on equity (DOE). Specifically, we aim to achieve a consolidated payout ratio of 25% or more, and DOE of 2% or more.

Aiming to improve earnings, we allot internal reserves for not only loans and investments to further accelerate the growth and expansion of our businesses and more quickly realize the business portfolios that we should pursue but also research and development to create new innovative technologies.

After giving comprehensive consideration to various matters, including performance results for the fiscal year under review and the outlook for the future business environment, the Company proposes to make the following dividend payment for the year-end dividend for the fiscal year under review.

(1) Type of dividend property

Cash

(2) Allocation of dividend property and total amount thereof

We propose a year-end dividend of ¥3.00 per share. The total amount of dividends will be ¥3,002,596,329.

Consequently, the annual dividend for the fiscal year under review will be ¥5.00 per share, including the already paid interim dividend of ¥2.00 per share.

(3) Effective date of dividends from surplus

June 25, 2015
