

Chemistry must play a prominent role in addressing a variety of social issues.

I believe that the chemical industry has an extremely important role to play in addressing a wide variety of global issues.

Reflecting in its Corporate Vision, the Mitsui Chemicals Group again took stock of its purpose and significance. In the course of reassessing the areas in which we can best serve society, we have established the Mitsui Chemicals Group's Future Vision.

Aiming for the sustainable growth and the development of both society and the Mitsui Chemicals Group, we are working to resolve social challenges along the three axes of the economy, the environment, and society.

The "Share Our Vision: — 共創 Kyo So; Co-creation, Collaboration, Cooperation" concept focuses on the need to promote a deep sense of awareness and mutual understanding of the Mitsui Chemicals Group's Future Vision and the value that we hope to create. This concept also blends the strengths of the Group's human resources and culture, the wellspring that drives our value-creation endeavors, with the aspirations of all stakeholders while serving as a rallying call to make this vision a reality.

The Mitsui Chemicals Group will continue to promote meaningful dialogue with stakeholders and engage in activities aimed at realizing the common global vision of creating a sustainable society.
