

LUBMER™

LUBMER™ is a specialty polyethylene, which has excellent properties such as "Superb Lubrication", "Wear Resistance" and "Processability".

Excellent sliding properties

Excellent friction coefficient & wear coefficient

	LUBMER™ L5000	HDPE	POM (homo)	Oil-containing POM (copolymer)	PA6
Wear test results					

Fax machine components

Properties: wear resistance, printing does not stick
Competing material: POM

Glass run channels

Properties: wear resistance, lubricity
Competing material: urethane

Coextrusion with Milastomer

Bearings for photo-processing machines

Properties: wear resistance, lubricity, cleanliness
Competing material: PTFE
